PRESIDENT'S MESSAGE

Dear Members of the American Hibiscus Society,

Here we go again. Florida's unusual weather has probably caught some people unprepared, not thinking that we would have freezing weather two years in succession.

It also caught a flock of robins as far north as Jacksonville, so even the birds were fooled.

Good rewards are not won easily. We have done it before and we will do it again.

The members of this Society are a determined group and not easily discouraged. Don't give up the ship. It is always darkest just before dawn.

A new scientific break-thru has just been announced that will minimize freezing damage, and it will be inexpensive.

The Hibiscus is a beautiful flower, so lets keep on growing it.

Wm. (Pollyanna) Squires
President
